**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

**The application has been amended as follows: claim 1, line 6, delete "substantially n," and insert "substantially n-shape," thereat.**

Claims 1-6 are allowed. The following is an examiner's statement of reasons for allowance: independent claim 1 recites a shock absorbing mechanism for a hard disk of a computer, comprising a parallelepiped frame having a forward opening, the frame including, at either side, two first holes, two second holes between the first holes, and two first apertures between the second holes; two side brackets of a section of substantially n-shape, each bracket being threadably secured to the hard disk and including, at an outer side, two spaced indentations aligned with the first holes, two vertical, elongate slots between the indentations, and two second apertures between the slots, two pairs of barbell shaped pads, each of the pads including two enlargements at ends and an intermediate neck disposed in the slot; and two elongate, inner positioning members each including two end stop members each for fastening the inner enlargement of the pad, and two third apertures between the stop members. These features, in combination with the rest of the elements or steps, are not taught or suggested by the prior art references. Claims 2-6 depend, either directly or indirectly, from claim 1 and are therefore allowable for at least the reasons provided above.

Art Unit: 2835

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
